FOUNDING STORE PROGRAM

Turn your regulars into your best marketing.

FavCircles is where people save and share the places they love — so a recommendation for your store comes from a friend, not an ad. Claim your store and every loyal customer becomes a walking referral.

WHAT'S IN IT FOR YOU

New faces find you — free

Your offers and announcements appear in the app's **Specials feed**, shown to people right around your neighborhood. Post happy hour, live music, a seasonal menu — no ad spend, no algorithm to fight.

Word of mouth you can see

When a customer saves your store, their whole circle of friends sees it — and they earn points when a friend saves it too. Sharing you isn't a favor, it's part of the deal.

Loyalty with zero overhead

Two stickers replace punch cards and pricey platforms. No hardware, no POS integration, nothing to install. You set the points and the rewards — and change them anytime, right from your phone.

Your customers keep their favorite spots in "circles" and share them with friends and family — a recommendation from someone they trust, not an ad.

AT THE COUNTER, IT'S THIS SIMPLE

1 • They scan your window sticker

New customers join FavCircles and save your store — earning points before they've even ordered.

2 • They scan the register sticker

Every purchase earns points on their own phone.

You choose how many

— up to 500 per visit.

3 • They redeem, you honor it

They tap Redeem on an offer you posted — "Free coffee, 300 pts" — and a single-use voucher appears on their screen, valid 5 minutes. They show it, you honor it. Nothing to install, nothing to reconcile.

HOW CUSTOMERS EARN POINTS

Join by scanning your window sticker	100 pts
Save your store to one of their circles	+50 pts
Scan the register sticker with a purchase	+25–500 / visit
A friend saves your store from their share	+50 pts
